Thought for this week:
Effort only fully releases its reward after a person refuses to quit

Napoleon Hill

Comment:

How close are you to success, sometimes it is just round the corner, but too many quit to quickly. You only fail once you quit, however if you are doing something and getting the same results, which are not results you are happy with, change what you are doing. Have the same goal but try something different until you get the results you want.
